EVERYTHING FOR NORTHERN HOMES AND GARDENS

READ BEFORE ORDERING

Where possible we like to have customers call for their purchases. We have been mailing perishable plants for many years with success, but often we are able to offer suggestions for planting and care that are worth your time.

Everything in this catalog is mailable with the exception of shade trees and poisons.

For your convenience we have indicated a uniform packing and postage charge for shipments by parcel post. The advance in postal rates and cost of packing materials have compelled us to raise this some. No order is too small to get our best attention, but it takes just as much time and material to pack a small order as one much larger. All trees and shrubs to be mailed at one time can be included in one package for 30 cents. All perennials can generally be packed together. Annual flower plants and garden plants can often be put together.

We prefer not to ship C. O. D.

Give us best information possible as to days you receive mail.

Checks, Money Orders or stamps acceptable. Make checks payable to Hardy Plant Nursery.

SAFE ARRIVAL of all parcel post shipments is guaranteed if claim is made immediately. Perishable plants will be replaced if not in good condition on arrival.

**EVERYTHING IN THIS CATALOG IS SUBJECT
TO SALES TAX**

ORNAMENTAL TREES

The trees we are listing here have proved to be the most dependable for our conditions. The sizes we offer are the best for safe transplanting and quick growth. Plant as early in the spring as soil conditions will permit.

GREEN ASH—Very dependable clean growing medium size tree. Good for street planting. 8 to 10 foot trees \$2.00 each; 5 for \$9.50.

THORNLESS HONEYLOCUST — Nice upright growing. We recommend this for general planting. 6-8 foot trees \$2.40 each; 5 for \$11.50.

CHINESE ELM—Is adapted to rather dry locations and will prove most satisfactory where water can be withheld the latter part of the season. Very fast growing. 6-8 foot trees \$1.25 each; 5 for \$6.00. 8 to 10 foot \$1.50 each; 5 for \$7.00.

AMERSINO ELM—A hybrid elm that looks pretty good. It promises to be better than Chinese Elm. Same price as above.

SILVER POPLAR—Quick growing broad spreading tree. Seems to be at home in this climate. Give plenty of room. 6 to 8 foot trees \$1.50 each; 5 for \$7.00.

BOLLEANA POPLAR—Light silvery foliage, tall straight growing. 6 to 8 foot trees \$1.75 each; 5 for \$8.25.

COTTONLESS COTTONWOOD—Quick growing and good where moisture conditions are adequate. 8 to 10 foot trees \$2.00; 5 for \$9.00.

NIOBE WILLOW—Green bark, long pendulous branches; the hardiest of the weeping willows. 6 to 8 foot trees \$1.75 each.

HOPA CRAB—Very hardy well shaped tree for lawn or yard. Crimson buds followed by rose colored flowers. The small red fruit makes wonderful jelly. 4 to 5 foot trees \$1.25 each.

RED SILVER CRAB—Silver and red cut leaved foliage. Flowers crimson fruit rich maroon. 4 to 5 foot trees \$1.50 each.

TREES with the exception of the crab apples are too large to mail and will be shipped at purchaser's direction and expense. All fruit trees and shrubs can be mailed for a charge of 30 cents for any number shipped in one bundle.

LILAC

No shrub gives as good account of itself in this climate as the various species of lilac. They are all truly hardy and are not bothered with pests.

COMMON PURPLE—The old reliable. 60c each; 3 for \$1.65.

COMMON WHITE—Same as above except color. 75c each; 3 for \$2.10.

CHINESE—Flowers nice lilac shade on long panicles. More graceful than common lilac. Plants bloom young. 60c each; 3 for \$1.65.

CONGO—A French Hybrid variety having wine-red blossoms. 90c each.

CARE OF PLANTS AND TREES

Vegetable and all soft plants are better unpacked on arrival and moistened. Place in a cool place and plant in evening or early morning. Water each plant separately when planting. Shading from sun and wind is very desirable.

Trees and shrubs are benefitted often by placing in water for 24 hours before planting. Pruning pretty severely is necessary. Remove some branches from trees, shortening others. Remove older wood from shrubs. Dig hole of generous size, larger and deeper than size of plant requires. Plant all trees and shrubs a little deeper than they grew in the nursery. Water plentifully. Tramp firmly. Keep top soil loose.

SMALL SHRUBS

Generally suitable for planting close to the house and where space is limited. Should be planted in front of larger growing kinds.

JAPANESE BARBERRY—Very hardy, small foliage that turns a vivid red in fall. The red berries persist all winter.

RED LEAF BARBERRY—Similar to the above, except that the foliage is bronzy red all summer. 70c each; 3 for \$2.00.

SPIREA—Vanhoutte—The most called for shrub on account of its masses of white bloom in early spring.

SPIREA—Arguta—Smaller and more upright than the above and blooms earlier.

SNOWBERRY—The large white fruits in autumn are especially attractive.

CORALBERRY—Similar to Snowberry but the fruits are pink and borne in clusters.

All of the above 35 cents each; 3 for \$1.00; except Red Leaf Barberry. Can be mailed for a minimum charge of 30 cents for postage and packing. Any number.

PLEASE add sales tax.

HEDGE

CARAGANA—Makes a good tough hedge that will stand lots of grief. 3 to 4 foot heavy stock, 25 or more at \$14.00 per 100.

RUSSIAN OLIVE—Very hardy hedge material used extensively in the north for clipped hedge or windbreak. 12 to 18 inch \$10.00 per 100.

BUCKTHORN—Very hardy shrub that makes a nice dark green hedge resembling privet. 12 to 18 inch \$10.00 per 100.

HONEYSUCKLE VINE

GOLDFLAME—It is literally just that. Blooms all summer. Hardier than old sorts. Good on a trellis or as a ground cover. 2 yr. No. 1, 75 cents; 3 for \$2.10.

LARGE SHRUBS

Shrubs that will grow to eight feet or more and not generally suitable for planting close to the house foundation. Best used as individual or background. Cotoneaster Caragana and Honeysuckle will stand close pruning and are valuable as hedge.

FLOWERING ALMOND—Covered very early in spring with deep pink double bloom before leaves appear. Very desirable. 18 to 24 inch size 85 cents each; 3 for \$2.50.

PEKING COTONEASTER—Spreading shrub with fine glossy leaves. Many black berries in fall and winter. 18 to 24 inch, 60 cents; 3 for \$1.65.

CARAGANA—Siberian Pea Tree—Large upright growing shrub with pale green branches and Locust like foliage. Small yellow flowers. Good screen or windbreak material where the growing is tough. 3 to 4 foot, 40 cents each; 3 for \$1.00.

HONEYSUCKLE—Large shrub. White flowers. Good large plants, 4 foot, 50 cents; 3 for \$1.25.

HONEYSUCKLE — Tatarian Red — Scarlet bloom in June followed by bright red berries. 2 to 3 foot, 60 cents; 3 for \$1.70.

NANKEEN CHERRY — Clean upright growing shrub. Light pink bloom followed by small red cherries that make excellent jam. 18 inch plants 50 cents; 3 for \$1.25.

TAMARIX—Hispid—Bloom bright pink over a long period in summer. The best Tamarix, not to be compared with the wild form. 18 to 24 inch 40 cents; 3 for \$1.10.

VIBURNUM—Opulus Sterile—Good old snowball bush. 18 to 24 inch 75 cents; 3 for \$2.10.

BUSH ROSES

AUSTRIAN COPPER—Bush type single rose. Brilliant orange-red flowers inside and yellow outside. Very striking.

BLANDA—Spring blooming bush rose. Soft pink in clusters.

ROSES

We are again offering some of the best Hybrid Tea Roses selected from a large list. They are all Northern California grown, hardy and vigorous.

EVERBLOOMING HYBRID TEAS

RED RADIANCE—Bright rose-red.

POINSETTIA—Large double open flowers of bright scarlet. Vigorous and prolific bloomer.

PINK RADIANCE—Brilliant rose-pink. Very fragrant.

GOLDEN DAWN—Rich yellow, suffused old rose.

McCREEDY'S IVORY—Large, well shaped, creamy white, fragrant.

EVERBOOMING CLUSTER

CAMEO—*Florabunda*—Shell-pink and salmon with a glow of gold.

FLORADORA — *Florabunda* — Many scarlet and geranium red flowers. 25 petaled. Very special.

RAMBLER ROSES

MARY WALLACE—Outstanding large flowered double pink rambler.

PAUL'S SCARLET—Scarlet flowers borne in clusters. One of the best climbers.

All of the above roses are No. I Grade at 95c each; 3 for \$2.70. Add 30c postage and packing on any number.

HOW TO GROW ROSES

Roses thrive best in a clay loam soil heavily enriched with well rotted manure. Prepare the bed 12 inches deep in an open airy situation unshaded by trees or buildings. Early spring planting is recommended in this climate.

All roses should be pruned back closely at planting and every spring thereafter. Roses must have winter protection here. Before ground freezes mound up soil about each plant and cover with leaves, straw, or evergreen boughs. Watch for diseases and insect pests.

APPLE

The apples listed are all very hardy and have quality also. It is generally a waste of time and money to plant the varieties popular in more temperate parts of the state. The seasons are so short that the late maturing kinds do not mature fruit properly.

ANOKA—This apple bears very young, about the same season as the Yellow Transparent; the appearance and quality are very good.

YELLOW TRANSPARENT — The most planted early variety in this country. Good.

WEALTHY — Early winter apple in this climate. A good cooker.

HARALSON—A real quality winter apple. Hardy, excellent keeper, best quality, handsome red apple.

McINTOSH—An old variety that has real merit as a winter apple in this climate. Red. Nice flavor.

WHITNEY—A large crab with a pleasing sprightly flavor. Very popular as a fall eating and cooking apple.

DOLGO—A nice shaped tree, beautiful in bloom. Bright red fruit, fine for jelly.

Any of the above well grown 4 to 4½ foot trees 75 cents; 5 for \$3.50.

PLUM

OPATA—Purplish-red fruit of good quality. Bears early.

WANETA—The hardiest of the extra large plums. Very fine.

Plums \$1.10 each; one of each for \$2.00.

NOTE—Any of these trees can be mailed for 30 cents postage and packing for one or any number. Pruned for planting when mailed.

SMALL FRUITS

RED LAKE CURRANT—A newer and better currant. Red fruit. 35 cents each, 3 for \$1.00.

ST. REGIS RASPBERRY—The best everbearing raspberry for this climate. Bears crops of fine flavored red fruit in spring and fall. Bears on new wood. \$1.00 per dozen, 50 for \$4.00.

HANSEN BUSH CHERRY—A small shrub that bears lots of small black cherries. Good fruit and a good shrub. 40 cents each, 3 for \$1.00.

CHAMPION GOOSEBERRY — Fair size berries, easy to pick. 45c each, 3 for \$1.25.

RHUBARB—Large red heavy yielding variety. Rhubarb needs very rich soil and plenty of water all season. Good divisions 2 for 35 cents, 6 for \$1.00.

GLADIOLUS

Plant about May first in this climate, five inches deep in good soil.

ELIZABETH the QUEEN—New ruffled Lavender, large spikes.

CORONA—Light pink, creamy throat.

VALERIA—Best red.

MARGARET BEATON—White with orange blotch in throat.

Three each of these four new varieties for 90 cents. Add 25 cents postage.

SNOW PRINCESS—We think this is the best white.

MARGARET FULTON—Rose salmon.

LULU HUNT—Geranium pink.

EARLY ROSE—Rich color, blooms early.

FLAMING SWORD—Early Scarlet.

GOLD DUST—Golden yellow.

KING LEAR—Deep reddish purple.

Any of this group 4 for 25 cents; 4 each of the 7 varieties \$1.50. Add 25 cents for postage any amount.

FINE MIXED—All good varieties, home grown, No. 1 size bulbs 25 for \$1.00. Add 25 cents postage any number.

PERENNIALS

These perennials are all hardy and easy to grow. They were all grown and wintered out of doors. All dug and packed with a ball of soil. They can be mailed but we like to have you come and get them.

COREOPSIS — Sunburst — Long graceful stems, semi-double golden yellow flowers. Fine to cut.

CARNATION—Hardy, rose color, large flowers.

HIGHLAND PINKS — A fragrant long flowering strain.

GAILLARIA— Burgundy—Long stiff stems, wine red, good cut. **Portala**—Brilliant Scarlet, tipped with yellow.

HOLLYHOCK—Chaters Double-Mixed.

SHASTA DAISY—Very large double and semi-double flowers.

STATICE—Fine feathery bloom. Used for bouquets either fresh or dry.

SEDUMS—Three kinds, suitable for rock garden or border.

COLUMBINE—Coerulea—Colorado blue columbine.

COLUMBINE—Crimson Star—Very large flowers of crimson and white.

DIANTHUS—Scarlet—A dwarf Sweet William with very intense color.

BELLIS PERRINE—English Daisies—Compact low growing plants. Plenty of bloom of various colors.

ANTHEMIS—Hardy Marguerite—Daisy-like yellow blooms. 3 ft.

DELPHINIUM—Pacific Hybrids—A wide range of color combinations. **Belladonna**—The favorite light blue. **Bellamosa**—Dark blue.

HESPERUS—Sweet Rocket—Purple flowers on 40 inch spikes.

PYRETHRUM—Painted Daisy—Double flowers, many pleasing colors.

SCABOSIA—New Hybrids—Beautiful large flowers. White, lavender and shades of blue. Good cut flower.

ROCK ROSE—Fine low growing evergreen plant. Small single rose like flowers. Rock garden plant.

CAMPANULA—Carpatica—Nice neat border or rock garden plant. Blue bells.

PENTSTEMON—Native wild flower, erect growing, generally blue. We have plants from seed saved from both blue and white plants.

CANTERBURY BELL — Biennial — Large plants that will bloom early.

All the above hardy perennials 20 cents each; \$2.25 per dozen your selection. 30 cents postage and packing on any number. Plant about May first.

ICELAND POPPY—Colorful blooming perennial poppies. Separate, **White, Orange or Yellow.** \$1.50 per dozen.

BLEEDING HEART—The hardy old fashioned kind. 90 cents each.

PEONIES

Here are some of the finer varieties selected to cover a long period of bloom. They should be planted very early, if planted in spring. All 85 cents each; 3 for \$2.40. Postage 25 cents any number.

White—FESTIVA MAXIMUS—Crimson flecked.

Blush—BARONESS SCHROEDER—Very large.

Ruby Red—FELIX CROUSSE—Brilliant color.

Crimson—KARL ROSENFELD—Late. Good.

Salmon Pink—WALTER FAXSON—Extra fine variety.

Bright Pink—EDULIS SUPERBA—Early, sure bloomer.

PANSY PLANTS

We have a large planting of pansies and violas that were starting to bloom before the snow came. They should be in fine shape for early planting.

SWISS GIANTS—Large well rounded flowers of good substance on sturdy plants. The colors are very rich. Good outdoor grown plants that do not wilt when transplanted.

VIOLAS—Miniature pansies. Bright colors, bloom through the hot weather. Same price as pansies.

Pansy and Viola plants 75 cents per dozen; \$1.00 postpaid; 2 dozen postpaid for \$1.75.

ANNUAL FLOWERING PLANTS

All of these plants are grown from seed and transplanted into flats. They can be mailed but more soil can be given with the plant when called for. Ready to set out May 20 to June 15.

ASTER—Early Royal—Yellows resistant. White, Shell, Deep Rose, and Purple.

ASTER—New Princess—Beautifully crested centers, long lasting when cut. Peach-pink, White, Reddish Crimson, Orchid Lavender.

ASTER—Heart of France—Good red.

AFRICAN DAISY—Hybrids — Various pleasing light colors.

SWEET ALYSSUM—Dwarf White and Violet separate. Nice for edging.

CALENDULA — Nice long stems for cutting. Orange. Will bloom early.

MARIGOLD—Spry, Dwarf—Blooms very early. Orange and Maroon flowers. The best little edging plant.

MARIGOLD — New large flowered varieties. Orange. Grow 30 inches high.

SNAPDRAGON—Super Giants—Large spikes on long stems. Separate colors, **White, Yellow, Soft Pink, Rose Pink.**

“TETRA SNAPS”—A new creation. Large double snapdragons on sturdy stems. Many pleasing colors from white to darkest maroon. Really good.

ZINNIA—Lilliput—Small early flowering strain. Nice to cut.

ZINNIA—Dahlia Flowered—Very large full blooms, mostly pastel shades.

Any of the above 40 cents per dozen; 50 for \$1.50.

PETUNIA

DOUBLE—We are using the best seed obtainable and the results are simply marvelous. Plants after May 20. 75 cents per dozen.

FLUFFY RUFFLES—Fringed and ruffled. Rich gaudy colors. Flowers four or five inches across. 60 cents per dozen.

FIRE CHIEF—Gold Medal Winner. Brilliant scarlet. The petunia of the year. 60 cents per dozen.

WINSOME—Soft rose pink flowers on a neat plant 50 cents per dozen.

BALCONY—Still one of the most popular types of petunia for beds and window boxes. Mixed colors. 50 cents per dozen.

Allow 25 cents for postage and packing on petunias, any amount.

GARDENING IS EASY

One of the beauties of gardening is that you can do the job on as small or as large a scale as you like, finances willing, from a flower pot to a park.

Another fine thing is that you can adapt your garden project to your personality and property.

Therefore the first thing to decide is just what you would like in the way of a garden.

Some people think of a garden as a place to produce flowers to cut and arrange in bouquets.

Others think of it is a place in which to study botany.

Others think of it as a place in which to raise as many varieties of certain flowers, such as roses or iris, as possible.

Others think of it as sort of a picture—a scene that makes the home look better from the street or from any other point of view.

Others just like to revel in masses of color.

Fortunately you can have any or all of these things. Whatever your choice, feel free to call on us for advice or suggestions.

TOMATO PLANTS

All tomato plants are transplanted in specially prepared hot beds and handled to secure the greatest possible root growth and hardiness.

Set plants very deep, four inches of top is generally all that is desirable to leave above ground. The very long plants that you get later in the season should be laid lengthwise with the furrow

VICTOR—Small vine or determinate variety, developed for Northern States and Mountain areas. Very early, fair sized scarlet fruit. Can be planted closer than older varieties.

EARLEANA — 90 days — The best variety where earliness and hardiness are of first importance. We use a very select strain of seed insuring a smoother fruit than is general with this variety.

JOHN BAER—95 days—Early, smooth, solid, red tomato. A few days later than Earleana. One of the best.

PEPPERS

Plant peppers in rich well drained soil for best results. There are no better varieties grown than the ones we offer here.

WINDSOR "A"—Good size with thick walls. Very early. The best where the season is short.

CALIFORNIA WONDER—Low Bush—This is the most beautiful pepper that we have ever seen. Great big square thick walled fruit of the best quality. It is early.

HUNGARIAN HOT — Large early hot pepper. Yellow turning to red.

TRANSPLANTED Tomato and Pepper Plants 35 cents per dozen, \$1.25 for 50, \$2.40 per 100.

NOTE—Mailing charge on all vegetable plants is just 25 cents if all can be mailed at one time. This gives very cheap mailing on larger orders.

Everything in this catalog is subject to sales tax

CAULIFLOWER

EARLY SNOWBALL — Large solid white heads. The plant has sufficient leaves to cover head when tied up.

Well hardened plants, 20c dozen; 35c for 25; \$1.25 per 100.

BROCCOLI—Sometimes called green cauliflower. Grow same as cauliflower except that heads need not be covered. Rich in vitamins. Price same as cauliflower.

CABBAGE

Our cabbage plants are grown in cold frames and are as near frost proof as we can make them. Plants from May 1st until July.

GOLDEN ACRE—70 days—Very early round heads weighing from four to six pounds. Quality the very best. Plant is dwarf and can be planted close.

EARLY JERSEY WAKEFIELD — 75 days — The good old pointed head variety, much improved. Always white and tender.

GLORY OF ENKHUIZEN—90 days. Second early heads of unusual size and quality. The variety is a favorite whenever tried. It is used in the high country for winter storage. The best for kraut.

PENN STATE BALLHEAD — 110 days — An improved strain of Short-Stem Ballhead. The hardest and surest-heading cabbage we have ever grown.

Cabbage for winter use should not be planted too early. In the lower altitudes June 1 to 15 will be found about right. In the mountains plant early and second early varieties about the same time.

All cabbage plants, 25 for 30 cents; 50 or more, \$1.00 per 100.

We suggest for a longer season of use that you do not plant all cabbage and cauliflower at one time. Put out some plants early in May and again about June first.

EGG PLANT

NEW HAMPSHIRE HYBRID—A very hardy early variety of fair size and quality. Transplanted plants 50 cents per dozen.

ONION PLANTS

Grown in Texas for northern planters. For best results should be planted early. 50 to 100 in a bunch. **Crystal Wax, Yellow Bermuda, Sweet Spanish.** 20c per bunch; 6 bunches for \$1.00. Add 25 cents for postage any number.

ONION SETS

White or yellow, 25c per pound. Add postage 25c for any amount.

ASPARAGUS — Martha Washington — The best variety for all purposes. Good 1 year roots 40 cents per dozen; 50 or more at \$2.80 per 100. The average family should have not less than 50 plants for a worthwhile bed.

RED CLAY FLOWER POTS

Nice smooth florists's pots. Prices not by mail.

3-inch	5 cents
4-inch, with saucer	2 for 25 cents
5-inch, with saucer	20 cents
6-inch, with saucer	25 cents
7-inch, with saucer	40 cents
8-inch, with saucer	55 cents
10-inch, with saucer	\$1.25
12-inch, no saucer	\$2.00

VIGORO

A complete 4-12-4 fertilizer for general garden and lawn use. Also on house plants. One pound package 15c; 5 lb bag 50c; 10 lb bag 90c; 25 lbs \$1.75; 50 lbs \$2.90; 100 lbs \$5.00.

HOTKAPS

Have come into general use for protection from frost and wind. 25 with carboard setter, 75 cents; 100 for \$2.85. Add 20 cents for 25 and 25 cents for 100 for postage.

HOW TO BUILD A LAWN

Very early spring or early fall are the best times to start a lawn.

Considerable fills or ditches should be settled thoroughly and the necessary grading done. Then all the soil should be stirred to a uniform depth of ten or more inches. Wherever possible the natural top soil should be used. The next step is to incorporate a good layer of well rotted manure with the top five inches of the soil. This top layer is the seed bed and should be pulverized carefully and the finishing touches put on the grading. Thorough preparation will pay off in a better stand of grass and in a lawn that is both beautiful and easy to care for.

Seed should be distributed evenly. One pound of good seed will sow 400 or more square feet. Mulch with one half inch of straw or better a light covering of fine manure free from weed seed. If manure is not used the seed should be raked in lightly.

After watering is started the ground should never be allowed to dry until grass is well started. A good sprayer that will cover evenly without washing is necessary to do a good job. Mowing should start when grass is two inches high.

Of course good seed will be necessary for success.

LAWN GRASS SEED

Our own mixture of high grade seed best adapted to this climate. No cheap coarse grasses. The right amount of White Clover. One pound \$1.10 5 pounds or more at \$1.05. Add postage at parcel post rates. One pound of seed will plant 400 to 500 square feet.

SWEET PEAS

For best results with sweet peas, plant in good garden soil well and deeply prepared. A slight trench is desirable so that soil can be worked toward the plants as they grow. Frequent hoeing and a regular supply of water is necessary. Plant as early as possible. Pick blooms often. Four packages or one ounce of seed is sufficient to plant 25 feet of row.

We have selected the best varieties of Giant Spencers to give you a nice range of colors.

White—RUFFLED WHITE—Many large flowers at one time.

Cream Pink—FLUFFY RUFFLES—Giant flowers.

Rose Pink—PINKIE—Very Dependable.

Crimson—RUFFLED CRIMSON—Rich.

Maroon—WARRIOR—Chocolate maroon.

Lavender—AMBITION—Long stems.

Dark Blue—BURPEE BLUE—Ruffled.

Orange—HEADLIGHT—Glowing color, sunproof.

Any of the above 10 cents per package, 30 cents per ounce, postpaid.

MIXED—Some of all of the above and many other fine varieties. 10 cents per package, 30 cents per ounce, postpaid.

For a number of years we have been starting sweet peas in squares and transplanting into the open about May 1st. For an early easy start try some of these. Two or three plants to the square, \$1 per dozen squares at the nursery only.

GARDEN SEED

We have picked a few of the best kinds for our short seasons, varieties that we have used and like. We package this seed ourselves from fresh stocks. You will find the quantity in a package very liberal.

Spancross Sweet Corn is one of the very best extra early varieties. We have tried quite a few.

Marcross is another hybrid that is even better in quality but a few days later. Try both. Both good for freezing.

Laxton Progress Pea cannot be excelled for earliness, quality and yield. Staking not necessary. Good freezer.

Everbearing Pea—Tall Grower. Will bear over a longer season.

Black Diamond Cucumber—Very early, excellent quality.

Bibb Lettuce—Small head, waxy yellowish green. Tops for flavor. Must be planted very early.

Cheyenne Bush Pumpkin—For small gardens. Best quality small fruits.

Squash—Zucchini—Very early bush variety. Can be used when only a few inches long and when mature. **Acorn** is the earliest winter squash. **Buttercup**—Yellow meated small squash. Very early and as good quality as Hubbard.

INSECTICIDES

We are glad at any time to help with your garden pest problems. Poisons are not mailable. Locally they can generally be sent by stage.

KNOX OUT GARDEN DUST—Contains 5% DDT. This will control most garden pests including Thrips and Leaf Hoppers. 1 lb can 35c.

CHLORDANE DUST—An Insecticide for garden, household and animal use. Recommended for almost any kind of insect pest. 10 ounce package with dust gun 55c.

DUSTING SULPHUR—For control of red spider and some fungus diseases. 1 lb 35c.

BLACK-LEAF 40—Sure death to aphids and chicken lice. Use for house plants. 1 oz. bottle 35c.

CYANOGAS—4 oz. can for control of ants at hill. 35c. 1 lb can for control of dogs and gophers 85c.

LIME SULPHUR—For dormant spray. 1 gal. 85c.

SODIUM FLUORIDE—Dust for eradication of lice on poultry. 1 lb 25c.

SEMESAN—For treatment of garden seed. Small package 15c.

SEMESAN BEL—Best treatment for seed potatoes and other bulbs and tubers. Enough for 6 bushels of potatoes 50c; 1 lb can \$2.00.

WEED KILLER

WEEDAR—20% concentration. Will kill almost all broad leaf plants. 6 oz. bottle, enough for 5 to 10 gallons of spray, 70c; 1 quart \$1.75.

Everything in this catalog is subject to sales tax.

SPRAYERS AND DUSTERS

FOG SPRAYER—Pint size for household use. 75c.

HUDSON CADET DUSTER—Necessary for proper distribution of all garden dusts. Large enough for most gardens. 75 cents each.

HUDSON ADMIRAL DUSTER—Best heavy duty hand duster, with extension rod for reaching under plants. \$1.85.

HATCHERY DISCONTINUED

We have discontinued our hatchery so that we might devote all of our time to the Nursery and Florist business. We wish to thank our many chick customers for their patronage. If this is to be an inconvenience to you we are really sorry. Our help with any of your poultry problems will still be gladly given.

POULTRY HOUSE EQUIPMENT

We still have considerable equipment on hand that we are pricing at a discount to close out. This is all well designed and made of best materials.

Chick Trough, 24 inch with roller	55c
Flock Feeder, 5 foot adjustable legs, 2 bushel capacity	\$4.10
Flock Feeder, same as above with 16 inch high perch	\$6.25
Double Wall Fount, heavy, 2 gal.	\$2.25
